18.46		20	-	372	695	990	1310	1630	1925	1925	1925	1925	1925	1925	1000mm	500mm

Notes: Tank volumes (effective capacity) based on the following criteria:
 200mm Outlet connection & 200mm Overflow connection
 Standard roof design - Region A

Eg. Tank volumes nominated to be used as a guide only. Contact Tank Industries to confirm volume requirements.

Tank Sizing: Tank Industries Model L11/D: 10.15m diameter x 4.73m high = 330kl effective capacity

Site specific tank sizing is possible upon request to suit diameter/height restrictions.
